

3rd International

# Solar Concentrator Conference

*for the Generation of  
Electricity or Hydrogen*

**May 1 - 6, 2005 • Scottsdale, Arizona USA**

Join other experts in sharing the latest information on technology and markets in the field of solar concentrators for producing electricity or hydrogen.

For more information, check the SC<sup>2</sup> Web Site at:

**[www.nrel.gov/ncpv/scc](http://www.nrel.gov/ncpv/scc)**

*At the 2003 Solar Concentrator Conference in Alice Springs, Australia, attendees visited a 220-kW solar farm consisting of 10 large concentrator PV units fabricated by Solar Systems, Pty Ltd (photo, left). Attendees of the 2005 Conference will be able to visit Fresnel lens concentrator PV units fabricated by Amonix Inc. (photo, right), as well as other PV and solar electric concentrator systems installed in the Arizona Public Service grid.*
